Recreational means the engines subject to 40 CFR part 1051 which includes off road motorcycles, all-terrain vehicles, and snowmobiles.

Subcategory refers to the divisions of the light-duty category which is composed of two subcategories, the certification/fuel economy subcategory and the in-use subcategory.

Total Number of Certificates Issued means the number of certificates for which fees are paid or waivers are issued. This term is not intended to represent multiple certificates which are issued within a single family or test group.

(b) *Fees for 2006 calendar year and beyond.* (1) This subpart applies to manufacturers that submit certification requests received by the agency on or after January 1 of each calendar year beginning in 2006. The fees due for each certification request will be calculated using an equation which adjusts the fees in paragraph (a) of this section for the change in the consumer price index and the change in the total number of certificates issued for each fee category.

(2) Certification requests which are complete, contain all required data, and are received prior to January 1 of each calendar year are subject to the fees provisions of the year that they are received by the Agency.

(3) Fees for the 2006 and later calendar year certification requests will be calculated using the following equation:

$$\text{Certificate Fee}_{cy} = [F + L * (\text{CPI}_{CY-2} / \text{CPI}_{2002}) * 1.169 / ((\text{cert}_{MY-2} + \text{cert}_{MY-3}) * .5)]$$

Certificate Fee_{cy} = Fee per certificate for the calendar year of the fees to be collected

F = the fixed costs, not to be adjusted by the CPI

L = the labor costs, to be adjusted by the CPI

CPI_{CY-2} = the consumer price index for all U.S. cities using the "U.S. city average"
